PROFESSIONAL SUMMARY

Senior Product Designer with 15+ years of experience designing complex enterprise and healthcare applications. Specializing in simplifying high-complexity workflows into intuitive user experiences for clinicians, operations teams, and enterprise users.

Hybrid UX Designer and Front-End Engineer experienced in translating product strategy into usable interfaces and collaborating closely with engineering teams to ship production-ready UI quickly.

Experienced in clinical workflow design, healthcare platforms, dashboards, patient-facing applications, and enterprise SaaS systems. Comfortable working in AI-accelerated design workflows, rapidly exploring concepts, prototyping interaction patterns, and delivering build-ready design direction in fast product cycles.

CORE SKILLS

Product Design: UX Strategy, Interaction Design, Clinical Workflow UX, Dashboard Interfaces, Information Architecture, Design Systems, Wireframing, Prototyping, Usability Testing

Design Tools: Figma, Photoshop, Illustrator

Front-End Engineering: HTML5, CSS3, Angular, React, Bootstrap, Responsive Web Design, Angular Material

UX Methods: Task Flow Mapping, User Journey Design, Usability Testing, Interaction Design, Accessibility Awareness (WCAG principles)
